Always a step ahead

NaviLink™

Wi-Fi remote control system

NaviLink is an add-on accessory that makes it easy to communicate with your Navien systems anywhere internet service is accessible. The NaviLink module attaches easily to any new or existing* Navien NPE series tankless water heater, NFC series combi-boiler, NCB-E series combi-boiler, NFB series boiler or NHB series boiler. Once installed, simply download the free app on your smart phone or tablet. Then you will be able to relax...with NaviLink you will have the convenience and control of all your Navien systems right in the palm of your hand.

*Existing installations may require the purchase of a new main PCB and front control panel.

NPE Series
Condensing tankless water heaters

NFC Series
Condensing combi-boilers

NCB-E Series
Condensing combi-boilers

NFB Series
Condensing heating boilers

NHB Series
Condensing heating boilers

Peace of mind
at your
fingertips

- Turn unit on and off
- Change DHW temperature
- Monitor system status
- Activate recirculation on NPE-A with HotButton™
- Schedule recirculation by hour or by day
- Add multiple users
- Allow installer access/account
- Multiple NaviLinks per account
- Push notifications

KD NAVIEN®
Always a step ahead

Navien innovations

are creating the most
energy efficient homes

Navien is the leader in condensing technology for water heaters and boilers. Our advanced systems recover extra heat from flue gases, that would be lost in non-condensing systems, to increase energy efficiency and reduce greenhouse gas emissions. This keeps exhaust emission temperatures very low, allowing for cost effective venting and space saving installations.

For more information contact your local Navien dealer or visit NavienInc.com.
